

SMARTER CONTRACTS FASTER FUNDING

Don't let re-contracting errors slow down your funding.

Misconceptions:

“My paper contracting process is just as fast as eContracting.”

“This will disrupt my current workflow.”

“eContracting is an expensive investment.”

The Real Deal:

Paper contracts can take up to 5 business days to get funded. Digital Contracting is virtually error-free and you can get funded as fast as the same day.

By seamlessly integrating with your current DMS, you can easily enter and submit a contract with just a few clicks.

The investment is minimal compared to the ROI, and the amount you save using Digital Contracting vs. paper contracts will speak volumes.

Speed up your contracting process with Digital Contracting on Dealertrack uniFI®.

Send complete, accurate funding packages to your lenders the first time — every time.

Key Benefits

- Create a paperless, accurate workflow from leads to contracts in one deal Jacket
- Eliminate contracting errors and hold ups to get funded as fast as the same day
- Reduce data entry with seamless DMS integration
- Capture slips and documents using a mobile device*, or upload files directly from your computer
- Elevate the car buying experience with mobile review and contract signing on any tablet, anywhere in the showroom

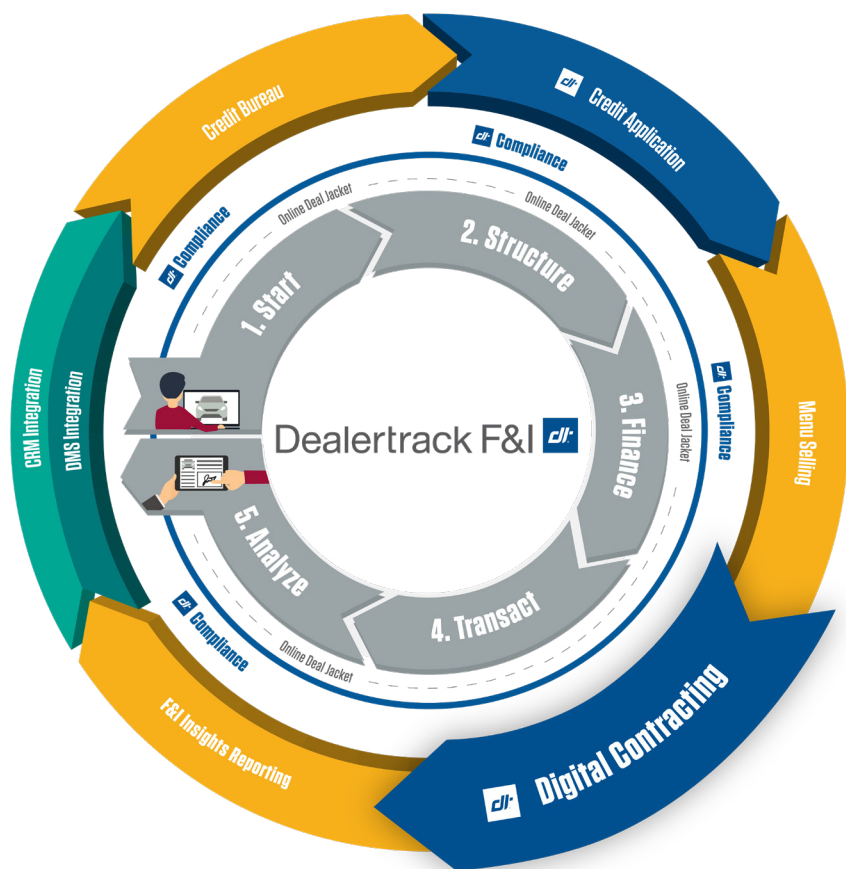

No transaction fees

When you subscribe to Digital Contracting on Dealertrack uniFI®.
